Sea Cargo Manifest & Transhipment Regulations, 2019

General Guidance for ANCs
SCMTR, 2018...

Supersedes

• Import Manifest (Vessels) Regulations, 1971,
• Export Manifest (Vessels) Regulations, 1976 and
• Transportation of Goods (through foreign territory) Regulations, 1965

Introduces

• Arrival Manifest in place of IGM
• Departure Manifest in place of EGM
• Arrival Transhipment Manifest in place of SMTP
• Departure Transhipment Manifest in place of Truck Summary
The Three Streams...

- Vessel Movement – Foreign to India and India to Foreign
- Customs Inland Movement
- Movement of Cargo
On Arrival of the Vessel

Before Dept. from Indian port of call

Before Dept. from last port of call

Leveraging Technology for Serving Tax Payers
Intent...

- Identify each cargo (Entered/Exit) uniquely.
- Use the Cargo details submitted for Risk/Facilitation
- Re-use the cargo details submitted for subsequent movements
- Track and trace – cargo details
- Seamless Segregation & aggregation process
- Online Approvals – no manual interface required
- Consolidated Cargo

Leveraging Technology for Serving Tax Payers
Stakeholders Involved...

✓ Freight Forwarders - ANCs
✓ ASC, in absence of freight forwarders
✓ Custodians handling the cargo on Segregation, Aggregation
✓ Transhippers (ATP)
Cargo Summary Notification (CSN)...

- Cargo Details should be submitted to the Customs before Entry or Exit as per prescribed timelines.
- Primary responsibility of submission is with the ASC.
- When consolidated, ASC can fulfil that requirement, if supplementary declaration is filed by NVOCC
- NVOCC/ASC can file cargo details earlier to manifest using CSN
- When CSN is numbered, PCIN would be returned for every primary Transport Document (HBL) included in the CSN
- MCIN returned when Master BL details filed by ASC for the first time

Leveraging Technology for Serving Tax Payers
Unique Cargo Identifiers

PCIN – Primary Cargo Identification Number

- Unique Number assigned by Customs to identify a cargo contained in single Transport Document mentioning Actual Buyer and Seller
- PCIN – 18 digit number (YYMC00XXXXXXXXXX00)

MCIN – Master Cargo Identification Number

- Unique Number assigned by Customs to identify the consolidated cargo contained in consolidated Transport Document mentioning Freight Forwarder.
- Each MCIN will be an aggregation of multiple PCINs. Referring to an MCIN in any subsequent manifest would mean reference to all the PCINs within.
Referencing of Cargo

CSN – EN (entry)/EX (exit)/DM (domestic)

- Prime Loader files CSN with HBL details – consigner/consignee/itinerary/cargo details. For exports, it can come directly from document number (Shipping Bill).
- For each HBL, PCIN is generated (Primary Cargo Identification No.).
- In the CSN – DM, i.e. I-I movement, the transhipper only has to quote the PCINs, or if all PCINs under an MCIN are being carried together, then just quoting MCIN would do.
- In case of segregation of cargo, the various PCINs under the original MCIN may subsequently fall under different MCIN after re-aggregation. But the unique identifier for each cargo would continue to be the original PCIN.
Leveraging Technology for Serving Tax Payers
Steps to File CSN...

**Step 1**
The original freight forwarder to book cargo with the Consolidator & get Booking No. (which will be BL no. Eventually) for all the consolidated BL having multiple HBL

**Step 2**
Ascertain VCN no. of the Voyage from the carrier

**Step 3**
Fill CSN for every consolidated BL giving details of all the associated HBL

**Step 4**
On successful filing, Customs would assign PCIN for every HBL (PCIN will be required only for segregation & consolidation) and also CSN for the consolidated BL

**Step 5**
Give CSN details to your consolidator

**Step 6**
Consolidator will be able to file details of consolidated BL & refer CSN
Types of Consolidation Flag

✓ S – Straight BL issued by Vessel operating carrier to actual Buyer/ Seller
✓ C – Consolidated BL issued by consolidator not containing actual Buyer/ Seller details
✓ H – House BL which will be eventually consolidated and contains actual Buyer/ Seller details
✓ R – BL being referenced only

Types of Previous Declaration Flag

✓ N – No prev decln
✓ Y – MCIN generated earlier to be referenced
✓ C – CSN filed with MBL in SAM/ CSN quoting previous CSN
✓ B – Shipping Bill to be referenced
